
Career Launch Program: Application

The Career Launch Program is designed to assist NEIU undergraduate students in career exploration and job search readiness. As a program participant, you will participate in group activities and workshops, as well as complete tasks and assignments. This multi-week program will provide you a framework to know yourself better, know how to research employers, and apply job-search skills to secure a career opportunity. With the successful completion of the Career Launch program, participants will receive a monetary stipend. Stipends will be linked to both attendance at individual weekly sessions and to satisfactory completion of the program. Also, a certificate of completion will be conferred.
